One Week Training Program on Promotion of Agripreneurship through AI Powered Farming

Date

25-29, November 2024

Venue

CAIML, Discovery Building, SKUAST-K

ABOUT THE TRAINING PROGRAM

The training topic "Promotion of Agripreneurship through AI-powered Farming" focuses on the intersection of agriculture, entrepreneurship, and artificial intelligence (AI). This training aims to empower agricultural professionals, farmers, and enthusiasts with the knowledge and skills needed to leverage AI technologies for entrepreneurial ventures in the agricultural sector.
